

From: Bill Krause, Mayor
Town of Slaughter Beach

To: Habitat Certification Committee

Dear Committee Members,

On Monday November 10, 2014 the Town Council voted unanimously to support the Habitat Certification Initiative, for the Town, through the National Wildlife Federation/Delaware Nature Society Community Wildlife Habitat program. The Council feels this initiative will go hand in hand with other initiatives the Town has done and continues to working on.

The Town's website and email list are at your disposal to use to keep Town residents up to date on the progress and provide an information resource to property owners.

Sincerely,

Bill Krause
Mayor Town of Slaughter Beach
