## OUR ENVIRONMENT

As a coastal community we have “visitors” that not all communities get to enjoy. Winter brings Canada and snow geese and the occasional tundra swan. In recent winters, a snowy owl has been gracing our town with its presence. The warming days of April give the baby diamondback terrapins a reason to emerge from the sandy beach and make their way to the marsh. Please, if you see these babies in the yard or on the street, move them to the safety of the marsh. If you happen across an adult terrapin, you can help it cross the road in the direction it was heading. May and June delight us with the spawning season of the horseshoe crab. These creatures are our mascot. They may look menacing but they are docile creatures. If you see one on its back, gently flip it over, but not by its tail. Shorebirds flock to the area, especially red knots to feast and fatten up on the horseshoe crab eggs. The purple martins and hummingbirds are back in full force. Dolphins and cownose rays frolic offshore during the summer months. Fall shows us the migration of the monarch butterflies across the bay. Slaughter Beach is a Certified Wildlife Habitat as of May of 2015, and we are beginning to naturalize our surroundings to help the monarch population, and other wildlife, grow and thrive.

*...A man knows that the world is not given by his fathers, but borrowed from his children...*

Wendell Berry, 1971

## GUIDELINES FOR SAFE FUN

### *DRIVING*

The speed limit through town is 25 mph, until you get to the north end where it increases to 35 mph.

*Please watch our children.*

*We have many, but can't spare any.*

### *SWIMMING*

Swim with other people - at your own risk - since there are no lifeguards.

### *BOATING*

Boat a safe distance from shore. Consider water depth particularly at the north end of the beach and during low tide.

### *JET SKIS*

Ride jet skis a minimum of 100 feet from shore, swimmers, non-motorized boats, and anchored boats.

### *PETS*

Keep your dogs leashed and under your control. Remove pet waste and dispose of properly.

### *BONFIRES*

When building a bonfire consider wind force and direction along with possible burn bans. Keep fire pits below dunes and extinguish fully by covering with sand before leaving.

### *DUNES*

Enjoy strolling the beach looking for special treasures but please stay off the dunes/beach grass as they are fragile and are the first line of protection from flooding.

WELCOME

to

## SLAUGHTER BEACH

Horseshoe Crab Sanctuary: 2004  
Certified Wildlife Habitat Community: 2015

Population: 207  
Established: 1681  
Incorporated: 1935

We are a small coastal community with great pride and love for our surroundings. There is a laid-back feel to living here. Kids play outside, neighbors wave to each other. Our love of the water and unspoiled nature draws us and keeps us here. Each season brings its own surprises, from snowy owl sightings in winter to horseshoe crab spawning and dolphins playing offshore in late spring and summer.

Welcome! We hope you enjoy and nurture our town and all of its inhabitants as the rest of us do.

## TOWN GOVERNMENT

Slaughter Beach is governed by a five member elected town council. Town Council meetings are held on the 2nd Monday of each month at the Fire Hall on the 2nd floor, southeast entrance. Elections are held on the first Saturday in July, if needed.

## TRASH PICKUP

Monday - usually early AM  
Recycling - every other Monday early AM  
Please see our website for more info
